

**NEW FOR 2016**

# NAVIGATOR™

## PORTABLE ROTARY HOSE DEVICE (RHD)

The hose rotation enables access through multiple elbows and makes the Navigator ideal for cleaning process piping, drain lines, and other small ID pipes with bends. The Industry's first RHD that provides hose containment for safety and convenience.

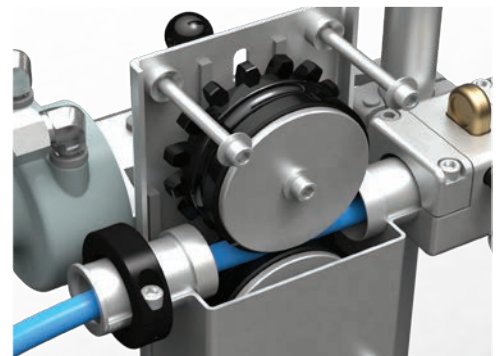

### FEATURES:

- Lightweight, modular system for portability and easy assembly
- Controlled hose rotation allows nozzles to pass bends in 2-4 in. pipe
- Can hold up to 115 ft (35 m) of hose for 100 ft (30.5 m) of reach
- Adjustable feed rate to customize dwell time
- Snout simplifies attaching to pipes and increases safety

### ERGONOMIC CONTROL BOX

Offers intuitive operation.

### ACCOMMODATES SEVERAL HOSE SIZES

Designed to work with 4/4, 5/4, and 6/4 hoses.

### SPECIFICATIONS

<b>MAX PRESSURE</b>	20k psi (1400 bar)
<b>POLY HOSE SIZE</b>	4, 5, and 6 mm
<b>USABLE HOSE LENGTH</b>	100 ft (30.48 m)
<b>WEIGHT COMPLETE</b>	85 lbs (38.5 kg)
