STRIKER™

AUTOMATED REMOTE SHOTGUN SYSTEM

The Striker is an automated system designed for hands-free shotgun applications with an emphasis on safety, usability, and easy assembly.

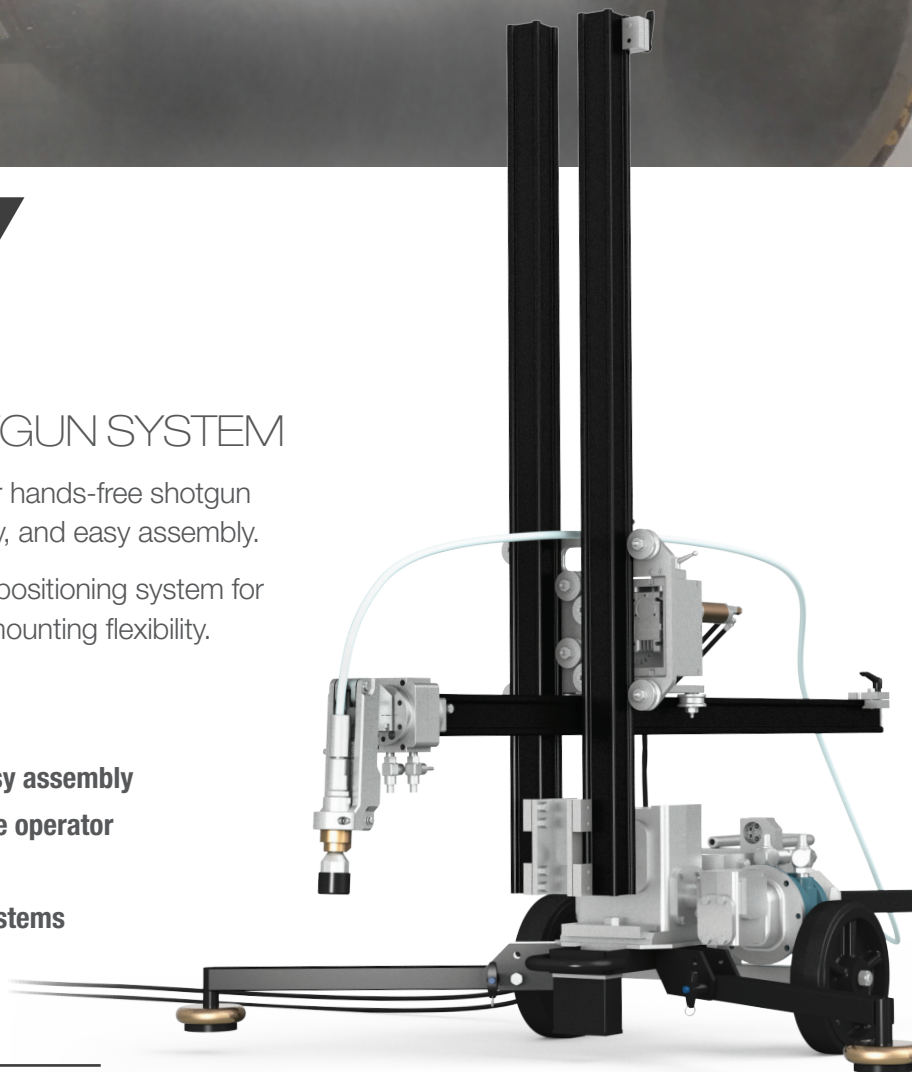

The Striker combines a rotary shotgun arm and positioning system for accuracy and has optional scaffold mounts for mounting flexibility.

FEATURES:

- Modular system designed for portability and easy assembly
- Wheeled base for easy maneuverability by single operator
- Ergonomic control box offers intuitive operation
- Affordable alternative to complicated robotic systems
