NAVIGATOR™

PORTABLE ROTARY HOSE DEVICE (RHD)

The hose rotation enables access through multiple elbows and makes the Navigator ideal for cleaning process piping, drain lines, and other small ID pipes with bends.

FEATURES:

- Lightweight, modular system for portability and easy assembly
- Controlled hose rotation allows nozzles to pass bends in 2-4 in. pipe
- Can hold up to 115 ft (35 m) of hose for 100 ft (30.5 m) of reach
- Adjustable feed rate to customize dwell time
- Snout simplifies attaching to pipes and increases safety

ACCOMMODATES POLY HOSES

Designed to work with 4, 5, and 6 mm hoses.

SPECIFICATIONS

MAX PRESSURE	20k psi (1400 bar)
POLY HOSE SIZE	4, 5, and 6 mm
USABLE HOSE LENGTH	100 ft (30.48 m)
WEIGHT COMPLETE	85 lbs (38.5 kg)
