# AUTOBOX® ABX-500

## AUTOMATED PIPE CLEANING SYSTEM

The Autobox ABX-500 is a portable, air powered hose control device. The unit features adjustable hose feed rate and can pass hose couplings for continuous operation. Traditional methods require the operator to hand feed a hose, which can cause streaking, fatigue and increased safety concerns.

### UPGRADES:

- Now uses the same lightweight control box as the ABX-2L making it easier for contractors to manage and maintain their fleet of Autobox equipment
- Features enhanced system controls for smoother hose deployment at slow speeds

### SPECIFICATIONS

|                   |                             |
|-------------------|-----------------------------|
| <b>HOSE FORCE</b> | Up to 200 lbs (90.7 kg)     |
| <b>FEED RATE</b>  | 1–30 ft/min (0.3–9.1 m/min) |
| <b>HOSE SIZE</b>  | 0.56–1.75 in. (13–44 mm OD) |
| <b>WEIGHT</b>     | 90 lbs (41 kg)              |

### VERTICAL APPLICATIONS

Can be used in vertical applications such as cleaning tanks, vessels and pipes.
