## OPERATING WATERBLASTING EQUIPMENT CAN BE POTENTIALLY HAZARDOUS. SEE PAGE 97 FOR IMPORTANT SAFETY INFORMATION

## AUTOMATED TANK CLEANING

## **SM-AIR LARGE TANK CLEANER**

High Flow Tank Cleaning

The SM-AIR offers air powered rotation at high flows for effective jet power over long distances. Different head options allow cleaning above and below irregular surfaces.

## **FEATURES:**

- Versatile and durable gearbox can be used with a variety of head designs for many different applications
- Air-powered rotation provides uniform coverage over a large area
- Variable speed control maximizes efficiency for heavy or light applications
- Ideal for cleaning boilers, furnaces, cyclones, and cokers

Tool Model	Pressure Range	Flow Range	Inlet Connection	Rotation Speed	Weight
SM-AIR	Up to 12k psi 830 bar	Up to 300 gpm 1140 I/min	1 NPT	10-70 rpm	78 lb 35 kg
